

## How to find your profile on skype

1. In your skype app, find the hamburger/kebab menu (with three dots) and select settings.

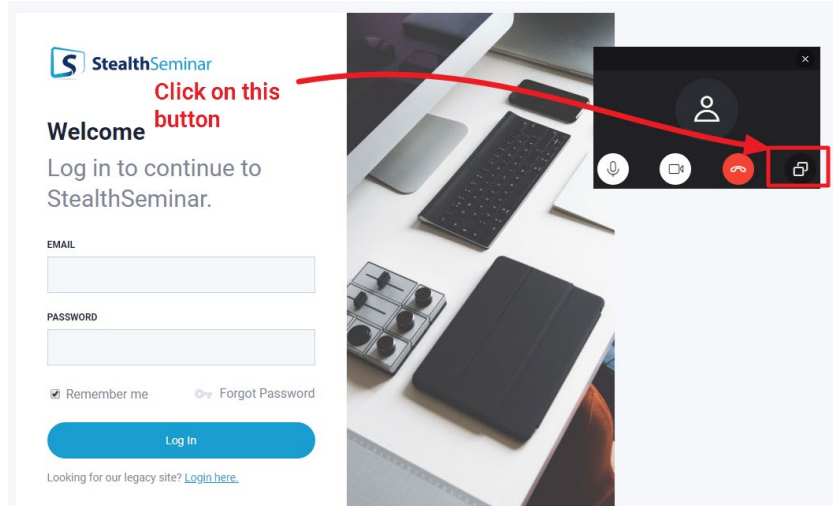

2. In **Account & Profile**, what you see beside **Skype Name** is your skype username

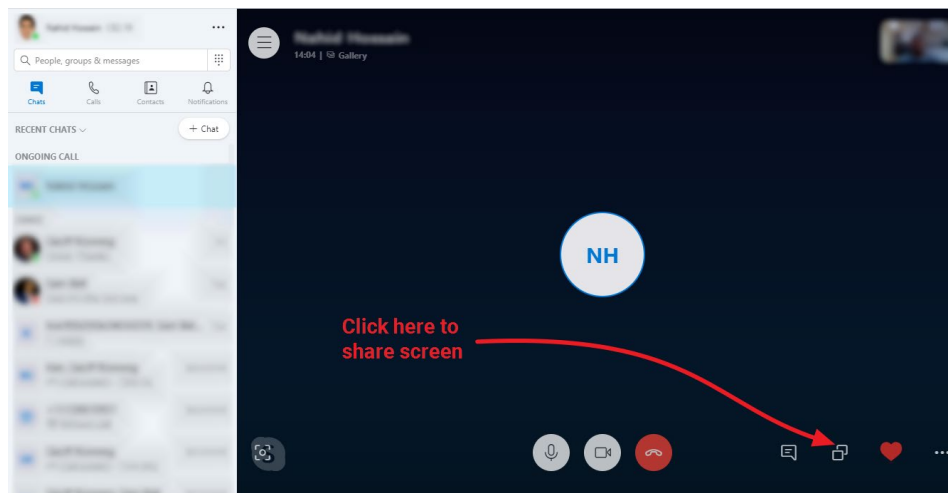

## How to share screen on skype

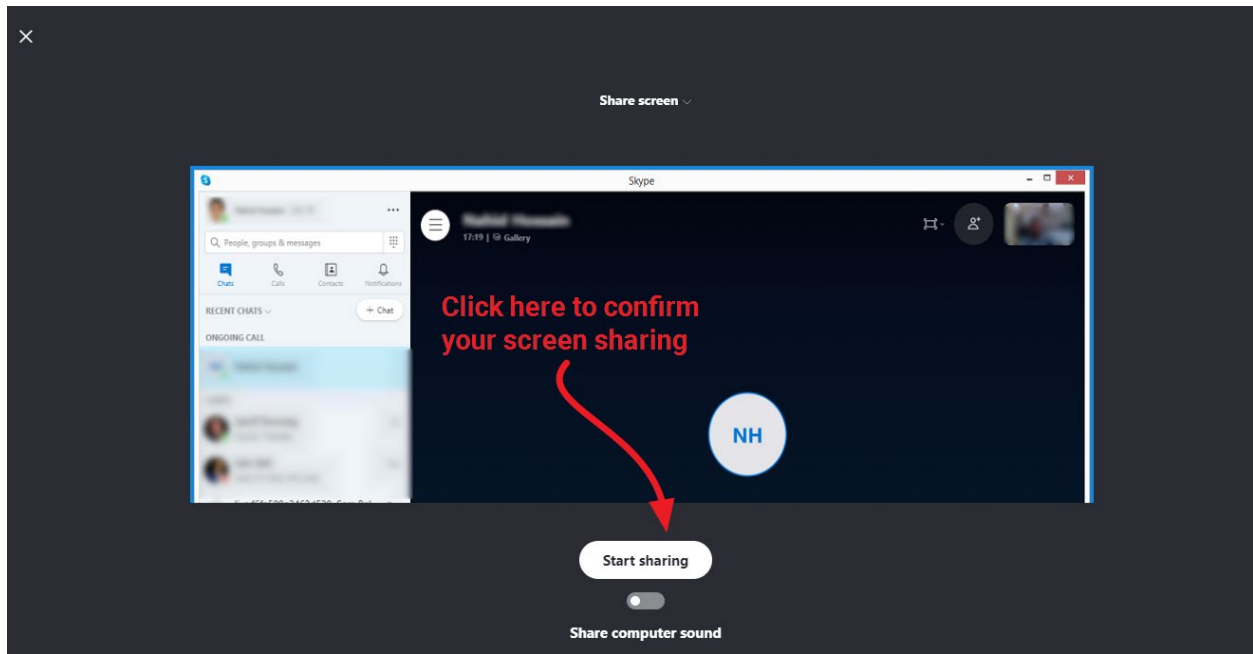

1. Find window icon while you are on call, generally it's just beside the red cancel/drop call button when you are not active in skype app.

Or if you are active in skype app then it's just beside the chat message button

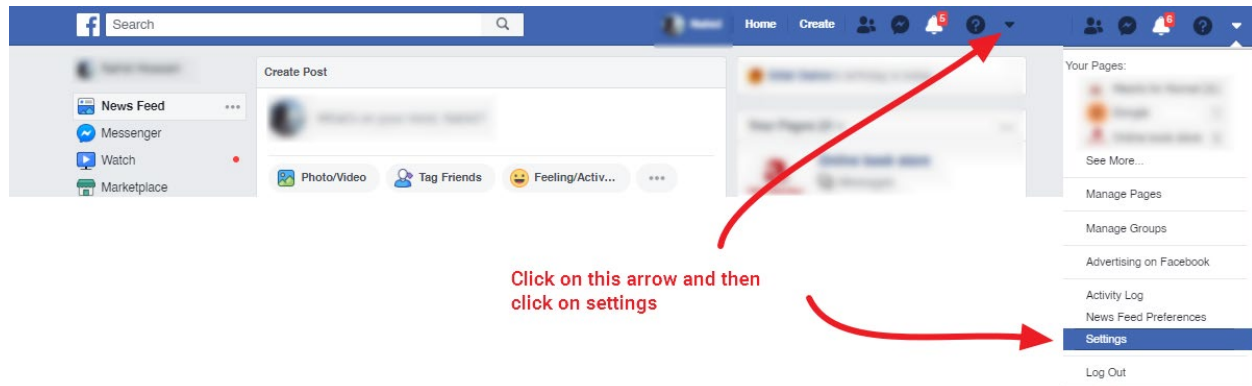

2. Then click on the start sharing button and you should be good to go.

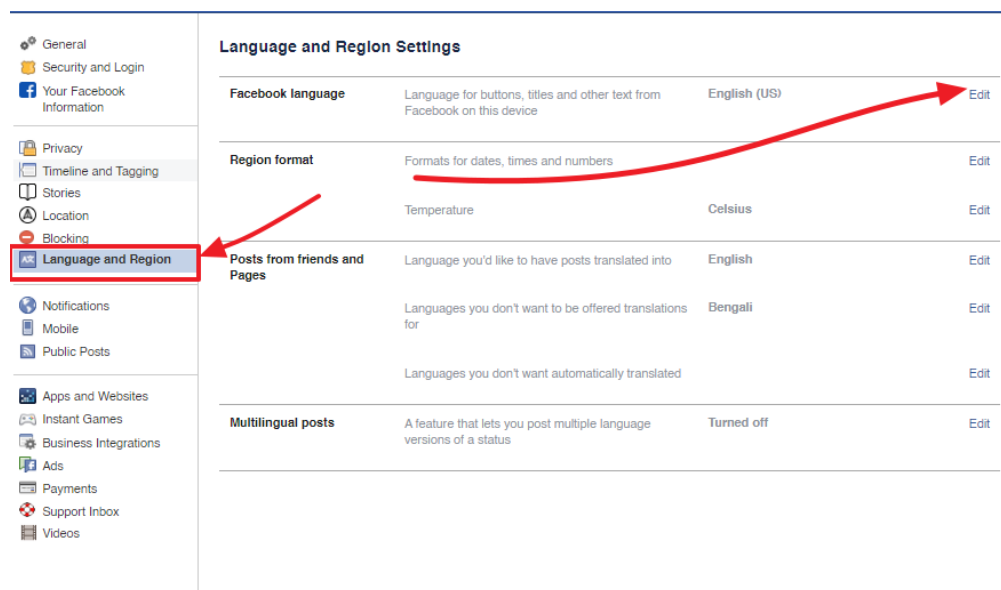

# How to make sure that you are using English for your FB account

1. Go to your facebook account and click on the **down arrow** then select **Settings**

2. In **Language and Region Settings** click on **Edit** beside **Facebook Language**.

3. Select **English (US)** if not already selected and click on **Save Changes**.

## Language and Region Settings
